

SUN'S SUN SWEEP®

“REPLACES THE USE OF WEIGHTED HOLE CLEANING SWEEPS WITHOUT ANY INCREASE OF UNDESIRABLE SOLIDS OR CHEMICALS IN THE SYSTEM!”

SUNSWEEP® is a superior hole-cleaning agent that transports drill cuttings, metal shavings and other debris out of the well bore. A proprietary treated polymerized synthetic fiber; SUNSWEEP® disperses easily in the fluid and exhibits excellent suspension qualities without adversely affecting any drilling fluid properties. The pail packaging, unlike cardboard-boxed product, is water proof and resistant to damage eliminating product damage while on location.

Advantages

- ◆ Compatible for use in all drilling fluids
- ◆ Increases carrying capacity of drilling fluid
- ◆ Loosens and removes cuttings beds
- ◆ Lifts and carries metal shavings debris during milling operations
- ◆ Faster than mixing gel/polymer sweeps
- ◆ Mixes quickly through rig mud-mixing hoppers
- ◆ Good hole cleaning reduces torque and drag
- ◆ Enhances rate of penetration
- ◆ Helps minimize wiper trips
- ◆ Non-toxic
- ◆ Chemically inert
- ◆ No effect on fluid LC_{50}
- ◆ No effect on overall fluid viscosity
- ◆ Will not plug MWDs or mud motors when mixed as recommended

Packaging

- ◆ 15 lbs. (6.8 kg) SUNSWEEP® per 6-gallon (22.7 liter) water-tight screw top pail
- ◆ 24-pails/pallet

Physical Properties

- ◆ Appearance: fiber
- ◆ Specific gravity: 0.9
- ◆ Thermally stable to 350°F (176.6°C)
- ◆ Insoluble in water or any drilling fluid

Application

- ◆ Pill or Sweep: Mix through rig mud hopper at 0.25 lbs/bbl (0.71 kg/m³)
- ◆ Mud motor and MWD applications: 0.10 to 0.15 lbs/bbl (0.28 to 0.43 kg/m³)
